# ABOUT US

Sterigold Medipack, a Passionate Venture of Kirit Patel & Shailesh Patel, have started its humble journey, in April, 2021

We specialize in Design, Development & Manufacture of Primary Packaging for Ophthalmic Delivery System & other related products and partner to leading Global Healthcare, Pharmaceutical Companies and Contract Packagers. Our state-of-the-art manufacturing facility is located at Ahmedabad (in the state of Gujarat), the Pharmaceutical hub of Western India. The Facility includes high end Injection Blow Moulding and Injection Moulding machines with fully automatic Polymer handling systems supported by Vacuum Packing & Sealing Machine in place, for both RM & FG. Our products are manufactured and packed under cGMP Complied & Validated clean room as per ISO 14644 with in-process monitoring at every stage from sourcing of FDA approved raw material to shipments of finished goods, till it reaches at our customers premises.

## ADVANCE & PLANNING

Technical and Analytical Team of providing a pipeline of new products & support to product's life cycle.

Sales and Marketing team to support customer's projects locally with speed to market.

Our focus on quality and ethics inspires us to strive to meet the objectives of our esteemed customers across the globe and the wider community.

# The Entity

Conceived in July, 2020 & Operation started in April, 2021

Located in Ahmedabad, Pharmaceutical Hub of India

Facility bolstered with high end Injection Molding & Injection Blow Molding Machines & Imported Molds placed under clean room conforming to ISO 14644 Standard.

Fully equipped in - house quality control laboratory & testing facilities

# VISION AND MISSION STATEMENTS

## Our Mission :

To strengthen and grow our Leadership Position in Pharma and Health Care Packaging by providing Prompt, Innovative, Cost effective and Aesthetically Superior Packaging, Drug Delivery System, developed and manufactured in compliance with cGMP standards.

## Our Vision :

In next 5 years we want to be one of the front runners in Indian Pharma Packaging and Drug Delivery System segment with a foot print across the Globe.

## Customer Satisfaction

We are committed to “The Total Customer Satisfaction” by: Delivering the best to our customers in terms of products, services and economics by strictly adhering to the international standards and systems being adopted by us.

## Managing

We are fully committed to prevent all forms of Pollution and provide Safe and Healthy Environment to all our Business partners including Customers, Suppliers, Employees, Society and Government Body etc.

## Forecasting

We apply the principles of continuous improvement with respect to air, water and noise pollution from our operations.

## QUALITY MANTRA & ACCREDATIONS

The word Quality is synonymous with Sterigold Medipack, it is embedded in our thought. Our products meet quality specifications and conform to the highest standard set out by industry leaders, and our technologies, process and systems enable us to partner with leading manufacturers. Our manufacturing facility is designed to meet ISO 15378 Standard.

We have robust process and systems in place to detect and remove all potential defects. Our bottles are inspected for manufacturing defects such as wall thickness variation, top load, pinholes, burn spots, short moulding, colour variations and flash, whereas our caps and nozzles are inspected for short moulding, burn spots and flash etc. We investigate each complaint (if any) with in-depth root cause analysis.

# Manufacturing Facilities

## MACHINERY SETUP

4 IM placed under clean room setup  
4 IBM Machines placed under clean room setup

## PROCESSING CAPACITY

400 metric tons of Polymer per annum  
7 million sets of Bottles per month

# Auxilliary Facilities

- A.H.U. System
- Polymer Conveying System
- Chilling system
- Air Compressor System

Polymer Conveying System  
Make Prasad Koch Technik

Chilling system  
Make Plastech

A.H.U. System  
Make Citizen

Air Compressor System  
Make Kaeser

# Lab Facilities

Weighing Scale

Bursting Strength Tester

Hot Air Oven

Vacuum Leak Tester

Compression Tester

Melt Flow Index Tester

Height Gauge

Torque Tester

# Packing & Warehouse Facilities

Box Strapping Machine

Vacuum Sealing Machine

# Type III Primary Packaging Products

3 Piece Ophthalmic Delivery System Includes  
P Design - 5 ml, 10 ml, 15 ml & 30 ml  
(Commercially Launched)

M Design 5 ml & 10 ml (Commercially Launched)

C Design 5 ml & 10 ml - (Commercially Launched)

Nasal Delivery System Includes

20 ml Squeeze Nasal Spray Sets - Under Development

30 ml Squeeze Nasal Spray Sets - Under Development

# We'd love to hear from you
